

Erratum

The second abstract (Anonymous, *Pest. Chem. News* 1(22): 2, May 2, 1973) on page 286, issue 5 of the bibliographical article by Huff and Wassom attributed recommendations for 2,4,5-T to the National Academy of Sciences. This was a true account of what was written in *Pesticide Chemical News*. However, *Pesticide Chemical News* erred in attributing any report on 2,4,5-T to the National Academy of Sciences.
